 Coconut

Amaizin organic creamed coconut is made from organically grown dried coconut meat. In savoury dishes add creamed coconut grated or in small pieces towards the end of cooking and stir in.

Creamed coconut is also suitable for use in desserts, cakes and as a substitute for coconut milk (50g dissolved in 100ml warm water).

Amaizin organic creamed coconut is shelf-stable and does not need special storage condition except to be kept away from moisture. Depending on storage temperatures, some separation of the coconut oil might occur. This does not affect the quality of this product.
